The ultimate comfort throughout the day

A modern tailored wardrobe for the whole team. The Envee collection is designed for movement using a bi-stretch fabric, engineered to move in all directions.

Designed for motion, the bi-stretch construction in the warp and the weft of the fabric uses an ultra technical stretch Poly/Visc/ Lycra that moves in all directions for maximum comfort at work.

The fabric has been carefully considered to create a formal smart appearance that wards off stains and wrinkles as your team go about their working day.

The collection allows your team to choose a style that works for them. Delivering a cohesive staff look that works from the boardroom to front desk. Available in regular, slim and tailored fits with a variety of styles for your team.

Worn everyday by sectors such as –

- Hospitality, Leisure and Airlines
- Office and Retail
- Events and Promotion
- Ceremonial
- Academy and Sixth Form
- Facilities Management
- Banking

Pilling —
Grade 4/5

Standards —
Fabric meets Oeko-Tex standard 100

Movement

The Envee Collection: Where Artistry Meets Movement

To celebrate the launch of the Envee Collection, we collaborated with two contemporary dancers to put our garments to the ultimate test. Designed to embody grace, fluidity, and freedom, these pieces needed to move as effortlessly as the body itself. The dancers pushed the collection to its limits, testing stretch, durability, and flow through the language of movement.

The result? Garments that performed so beautifully, we were inspired to name each piece after legendary composers. Just as composers weave melodies into timeless works of art, we've crafted garments that blend functionality with elegance.

French bearer on both trouser fits. Though a French bearer is by no means necessary, it does add key functionality to a pair of trousers. This extra fastening holds the front of a pair of trousers flat, which helps to keep them looking crisp and smart.

People & Planet

We don't just claim sustainability, we certify it. We proudly partner with Carbon Neutral Britain, Wrap, Sedex and Oeko Step to ensure our products, and our processes, support both people and planet.

As we work to drive emissions to zero, we believe that we should be held accountable for our environmental impact. So until we reach our goal of zero, we're taxing ourselves for the carbon we do emit, and investing in carbon offsets to fund projects that neutralize our footprint.

This goes towards funding projects not just on emissions, but also their wider impact – providing secondary benefits such as education, employment, clean water, and a positive impact on the local wildlife and ecology.

Turning recycled plastic into tailoring

The Recycled Polyester fibre is made from 100% PET Plastic Bottles and is Certified by the Global Recycled Standard and is produced in a Green Mill powered by Bio Fuel.

The bottles are sourced using various socially compliant sources such as Identified Collection Agencies, Reverse Vending Machines and collection drives at events. The bottles are cleaned, washed and crushed to create plastic flakes. The flakes are melted down and extruded to make fibre.

We don't use agencies to manufacture our tailoring. We don't use factories that we haven't meticulously checked. We know who makes our clothing and we also expect the same from the partners we work with from the fabric mills to the button suppliers. Our supply chain is industry leading in terms of compliance, sustainability and welfare so you can feel assured that we only work to the highest practices.

Tailored for the demands of the working day

Every garment is developed ultimately to domestic wash performance

We are deeply experienced and passionate, continually testing and refining to ensure your tailored garments last longer. Each piece is carefully developed to meet domestic wash performance standards, from fabric blending to precise engineering.

All garments are a combination of technical excellence and fine craftsmanship expertise that sets them apart from high street suits

The Collar

If you open up the collar you will notice an extra tape that is used to help stiffen the collar.

The Buttons

Dyed through buttons that look good for years without fade.

The Lapel

The lapels are carefully crafted and rolled to give shape and depth for a clean crisp sharp suit.

The Canvas

The canvas creates a structured look but it is also durable and flexible allowing the jacket to naturally conform to your body shape.

The Pockets

The pockets are precision made to look good and stay in shape for the life of the garment.

French Bearer

Gives a “clean” look when fastened and stays in shape through long wear.

Easy Waistband

We have trousers available with a discreet elastic insert to give waist ease while retaining a formal appearance.

Branded Zips

Branded zips are used for industry leading reliability.

Bespoke Tailoring

A uniform is more than a piece of clothing. It is a sense of belonging, bringing people together and harmonising teams.

If you are looking for a completely bespoke look, we understand the dynamics of your brief from the fabric, raw materials, design, sampling, manufacturing, environmental impacts and quality assurance through to the necessity of timely logistics.

We like to think we provide an intelligent solution to textile sourcing. We are pro-active and will regularly provide developments in the form of fabrics and garments for your review.

We don't use agencies to manufacture our tailoring. We don't use factories that we haven't meticulously checked. We know who makes our clothing and we also expect the same from the partners we work with from the fabric mills to the button suppliers.

Our supply chain is industry leading in terms of compliance, sustainability and welfare so you can feel assured that we only work to the highest practices.

What made you choose Clubclass as your bespoke tailoring manufacturer?

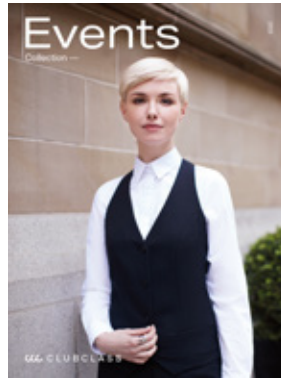

Molly Hopkins,
*Director of Corporate Wear
at Gresham Blake London*

“ When we are designing uniforms for large hotel groups, often in-house uniform launderability is a key point in their brief. With Gresham Blake's reputation of being a high end bespoke tailoring brand, it is important to us that we maintain the quality and structure of our tailored garments. Clubclass are experts in producing long lasting, quality garments that still look amazing after being washed and hung to dry.

Our niche is offering bespoke corporate wear designs including original micro-poly jacquards and printed lining designs. Mixing these bespoke fabrics with the range of hardwearing, sustainable and ethical fabrics from Clubclass has been a winning combination for our clients.”
