BETTER FABRICS

Our clothing is designed to withstand the rigours of everyday wear and we encourage our customers to treat their clothing with respect and care to help extend their natural life cycle.

BETTER TRANSPORT

We are striving to improve the way we import our goods into Europe and are working with key transportation partners to monitor and reduce the CO₂ levels we produce. We will always choose sea freight as our preferred method of transportation.

COMMITTED TO

BETTER

BETTER SOURCING

The recycled polyester and nylon in our garments comes from pre- and post-consumer materials which are certified to the Global Recycled Standard (GRS) or the Recycled Claim Standard (RCS).

The organic cotton we source is certified to the Global Organic Textile Standard (GOTS) or the Organic Content Standard (OCS).

BETTER ENGAGEMENT

It's important to us to give back, which is why we donate and sponsor charities that benefit the communities where our products are made.

In partnership with the Jaago foundation, we sponsor a class of 40 children at the Jaago School Banani Branch in Bangladesh.

WHY WE'RE COMMITTED TO BETTER

By introducing better materials and processes into our supply chain we minimise the impact on the environment.

We are forward-thinking and fashion conscious, whilst working to be as environmentally responsible as we can be.

As a business we recognise and embrace the need for change in the industry and are very excited about the developments within our company.

BETTER PACKAGING

Since 2021 we have reduced single unit plastic packaging and increased the amount of recycled content within these units.

Ethical and Environmental Policy

People, Production & The Planet

Ethical Production
